

ANAS HAMDİ OSMAN

SOFTWARE DEVELOPER

Dubai, UAE • +971561660073 • anas-el-tom@live.com • linkedin.com/in/anas-el-tom/

Experienced Software Developer with over two years of intensive experience in software development, primarily focusing on Node.js and React.js technologies using MERN stack.

PROFESSIONAL EXPERIENCE

Rebels Tech FZCO, Dubai, UAE

10/2022 – Present

Software Developer

- Designed and implemented jadwelny.com, integrating Stripe and Ziina for payments and a third-party hotels API, streamlining transactions and user interaction.
- Built a social media tool for easy picture and video uploads to S3 Bucket. Added photo compression and thumbnail creation, making images load 80% faster.
- Developed a RESTful API using Node.js, Sequelize, and Express.js, effectively serving both web and mobile applications with efficient data handling and scalable back-end functionality.
- Selected PostgreSQL as our RDBMS for its advanced transaction management and search capabilities, meeting our web and mobile app's complex data needs.

Code for computer software, Khartoum, Sudan

06/2021 – 04/2022

Software Developer

- Managed and built scalable and robust parts for a business process management system, guaranteeing reliable and effective functioning.
- Monitored MySQL Database to ensure maximum performance, achieving a 20% increase in efficiency.
- Headed the management and support of a billing system for a telecom company, ensuring efficient and reliable operations.
